

READING THE Bible

The Bible is the Word of God. If you want your children to get to know God better, read the Bible!

Find the right Bible for your child – something that is age appropriate and interest appropriate!

Will your child engage better with pictures, words, black and white, animation, easy to understand language?

Bible suggestions:

If your child enjoys watching TV, you can find some great animations of the Bible to help them understand it better. Check out the Hey-O series from Saddleback Kids which is a strong favourite of ours!

Don't just read the Bible, but talk about it too!

Ask questions like:

- What was your favourite part of that story?
- What did you learn about God?

How can you make sure time reading the Bible is in your daily routine? You could have Bible story books amongst their book collection for them to pick up as they play. You could read something from the Bible together before bed or over breakfast.
